NOTE1:

For the purposes of this document the definition of CLOD is "Competition Line of Demarcation". The CLOD date is October 31, 2009. Base Award actions signed on or after October 31, 2009, will have the designation of Post CLOD, when appropriate. Base Award actions signed before October 31, 2009, will be referred to as Pre CLOD, when appropriate.

NOTE2:

In order to ascertain if a data element is truly required you must review the data validations document.

NOTE3:

Use case definition for 'Propagates' is used in the Competition section and is effective 10/31/2009.

Required (Civilian):

Mandatory - Input required for all civilian agencies; Optional - Input may be required for all civilian agencies; Not required - Input not allowed; may be System Generated or may be pulled from the IDV; Propagates - Input not allowed. The value is propagated from the referenced IDV or the base record; Propagates/Required - Under normal conditions, the value will be propagated from the referenced IDV. However, under certain special conditions, the value will be required; System Generated - Input not allowed, as the data element is system generated.

Required (DoD):

Mandatory - Input required for all DoD agencies; Optional - Input may be required for all DoD agencies; Not required - Input not allowed; may be System Generated or may be pulled from the IDV; Propagates - Input not allowed. The value is propagated from the referenced IDV or the base record; Propagates/Required - Under normal conditions, the value will be propagated from the referenced IDV. ElementNo: 6C

Name: Multiyear Contract

DEName: Multiyear_Contract

Screen Name: Multi Year Contract

XML Tag Name: multiYearContract

XML Version: Version 1.0 and later

Derivation: None

Definition: A multi-year contract means a contract for the purchase of supplies or services for more than 1, but not more than 5, program years. Such contracts are issued under specific congressional authority for specific programs. A multi-year contract may provide that performance under the contract during the second and subsequent years of the contract is contingent upon the appropriation of funds, and (if it does so provide) may provide for a cancellation payment to be made to the contractor if appropriations are not made. The key distinguishing difference between multi-year contracts and multiple year contracts is that multi-year contracts buy more than 1 year's requirement (of a product or service) without establishing and having to exercise an option for each program year after the first.

Instruction: Enter code Y when the definition for multiyear contract applies. Do not report contracts containing options as multiyear unless the definition above applies to the contract.

Type of IDC

ElementNo: 6D

Name: Type of IDC

DEName: Type_Of_IDC

Screen Name: Type of IDC

XML Tag Name: typeOfIDC

XML Version: Version 1.0 and later

Derivation: None

Definition: Identifies whether the IDC or Multi-Agency Contract is Indefinite Delivery/Requirements, Indefinite Delivery/Indefinite Quantity, or Indefinite Delivery/Definite Quantity. A requirements contract provides for filling all actual purchase requirements of designated Government activities for supplies or services during a specified contract period, with deliveries or performance to be scheduled by placing orders with the contractor. A Requirements IDC or Multi-Agency Contract is a contract for all of the agency's requirement for the supplies or services specified, and effective for the period stated, in the IDC or Multi-Agency Contract. After award, the contract is a mandatory source for the agency for the supplies or services specified. The quantities of supplies or services specified in the IDC or Multi-Agency Contract are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment. An indefinite-quantity contract provides for an indefinite quantity, within stated limits, of supplies or services during a fixed period. The Government places orders for individual requirements. Quantity limits may be stated as number of units or as dollar values. An Indefinite-Quantity is a contract for the supplies or services specified, and effective for the period stated, in the IDC or Multi-Agency Contract. The quantities of supplies and services specified in the IDC or Multi-Agency Contract are estimates only and are not purchased by this contract. A definite-quantity

contract provides for delivery of a definite quantity of specific supplies or services for a fixed period, with deliveries or performance to be scheduled at designated locations upon order. A Definite Quantity IDC or Multi-Agency Contract is a definite-quantity, indefinite-delivery contract for the supplies or services specified, and effective for the period stated, in the IDC or Multi-Agency Contract.

Instruction: Enter the code from the list for the initial load of an Indefinite Delivery Contract (IDC) or Multi-Agency Contract, but not for Government-Wide Acquisition Contracts (GWACs). If this data element is completed, then users will be prompted to report the next two data elements.
